**PROPOSAL FOR PARTNERSHIP**

Recycling Partners of Jamaica Ltd. would like to enter a partnership with you, to aid the country’s fight to reduce the plastic waste from the environment.

Recycling Partners of Jamaica (RPJ) is a charitable organization founded in 2014 as a joint mission between the private sector and the government. The company has as its mandate to reduce plastic bottle waste in the environment. Jamaica currently produces 800 million plastic bottles per year, and we are charged with ensuring that by 2025, we are collecting 85% of that amount for recycling. We need your assistance to help make this goal a reality.

We have eight collection depots across the country where plastic bottles are sorted into colors and baled (compressed into blocks), which we now export. The recycler that the bottles are sold to, grinds them into chips, which then becomes a raw material that is used to make several things from road and building materials to cloth, toys and furniture. We are proposing that RPJ branded receptacles be placed at your locations, as per your recommendation. These receptacles (6x6x6 cages) should be placed in accessible areas where persons can place their plastic bottles, already bagged inside the cage.

**PARTNERSHIP DETAILS:**

**RPJ’s responsibilities**

1. We will provide you with one (1) branded cage for the collection of plastic bottles only for each location identified.
2. We will collect the packaged bottles, as soon as the cages are filled.
3. Provide the necessary notices for public education and awareness

**Your responsibilities**

1. Ensure that cage is properly cared for, visible and accessible.
2. Notify RPJ when collection is required, allowing 5- 7 working days for collection.
